SENATE APPROVES MAXIMUM SURTAX CUT TO 20 PER CENT

No Roll Call Required to End the Battle for Higher Rates.

LENROOT AND WALSH SEEK TO AMEND BILL

Plan for Increased Levy Is Beaten, 55 to 25; Simmons Defends Provision.

By ALBERT W. FOX.

The Senate at 6:30 p. m. yester day adopted the finance committee' provision for a maximum 20 per cent surtax without a roll call. All incomes of more than \$100,000, ir respective of their size, pay this amount and a graduated scale cov ers amounts of income from \$10,000

This marked the end of the fight over surtaxes, a battle which chrys tallized during the last hour or so of the session and became so storm and determined that votes began to switch.

An attempt by Senator Lenroot to amend the bill so that incomes from \$100,000 to \$500,000 would pay up to a maximum surtax of 25 per cent for the latter amount and

over was the storm center. Abandoning the administration Travis, who was in the mine at the program, the senator from Wisconhad attempted to defend the provision of the committee bill whereby the man with an income of \$1,000, 000 paid the same 20 per cent rat as the man with \$100,000.

Mellon Held Exceeded

"You are now voting for a lower surtax rate than Mr. Mellon himsel recommended," he contended. Senator Walsh, of Montana, had thrown himself into the fray in support of higher rates for the wealthy and he and Mr. Lenroot found support from Senators Nor

ris and Couzens. But the Lenroot amendment wen down to defeat, 55 to 25, and the

battle was over. Efforts to amend the surtax rates became pronounced toward the

close of the day's session. The first vote was on Senator King's amendment providing a re duced schedule of surtaxes, applicable to incomes between \$20,000 and There was no roll call as the viva voce vote was over-

THE victory of 1912 was the first won by the Democrats in a presidential election since 1892—an even two livers and the contraction of the contrac THE victory of 1912 was the first won by the Democrats in a presidential election since 1892—an even twenty years. This long exclusion from power laid a tremendous handicap upon the party and its leaders when they came to organize an administration; for in the United States the minority suffers as much materially from being the under dog as the majority suffers morally from an overlong lease of control. The older men of the party which has been in opposition have developed critical rather than constructive faculties, and it is long since they have exercised executive functions: comparatively few younger men of capacity have been attracted to the party, and those few have had no administrative experience. What is worse, long political exile will have sharpened every one's appetite for office.

Mr. Wilson did not conceal from himself the particular difficulties which he, as leader of the party and President-elect, must face. He was without political experience except for his brief tenure of the New Jersey governorship. His two chief campaign leaders, McCombs and McAdoo, were at daggers drawn. The man who exercised strongest in

Adoo, were at daggers drawn. The man who exercised strongest in-fluence in the party, Mr. Bryan. Wilson regarded as impractical and notoriously mistaken in his personal judgments. Other leaders, such as Underwood and Champ Clark, he had fought vigorously in the pre-

nomination campaign.

The factor which counted most heavily in stimulating the confidence of Wilson was the obviously disinterested attitude of Col. House. "I would not exchange the confidence and friendship that Gov. Wilson seems to have for me," House wrote in November. "for any office in the land."

be well informed if Gov. Wilson should consult me."

Pressure upon House was increased because Wilson had determined to go to Bermuda for a rest and before sailing was slow to confer with the politicians, who one and all feared that they were not going to find a place in the picture. "I telephoned to the governor." he wrote on November 14, "and advised him to write a note to Mr. Bryan telling him that he would confer with him after his return from Bermuda. He said he world do so at once. I am to see the governor Saturday morning and will advise him concerning other matters pending. In my opinion he is making a mistake in not calling for advice from political leaders, as they will become disgruntled."

Two days later, before Wilson

Two days later, before Wilson left, he and House drew up a tentative list for cabinet positions and discussed the best means to satisfy those who, by their work in the two who, by their work in the list more than a lawyer; he is a publication of the properties of the same o campaign, felt that they had earned proper rewards. It was already agreed that Mr. Bryan must be given his choice of positions. As far back as September House recorded that Wilson had accepted his argument that "it would be best to make him Secretary of State in order to have him at Washington and in harmony with the administration, rather than outside and possibly in a critical attitude. Mrs. Bryan's influence, too, would be valuable."

Wilson Visits House

"November 16-Gov. Wilson telenhaned me early." recorded Col. House, "and asked if it would be convenient for him to come over to House's apartment at 10 o'clock He remained for an hour or more and we went over all matters in the most confidential way. Cabinet material was discussed. . . . We discussed what to do with McCombs

and McAdoo. He said he would give the former a first-class foreign appointment in order to get rid of him. He said he would be willing to give him the collectorship of the port of New York if it were not that he could build up a formidable political machine. I told him McCombs would not think of accepting the collectorship. I suggested McAdoo as Secretary of the Treasury, Burleson as Postmaster General. THE SURTAN

No subject connected with the question of direct or internal revenue taxation seems to give so much trouble and provoke so much discussion as what is called the surtax; that is, the tax on net incomes above the normal In 1924 this was the bone of contention between the administration and antiadministration fusion forces. The latter won after a battle; but this year the antiadministration forces, having discovered their mistake, have fallen in line with public sentiment and now indorse the proposed reduction of the maximum surtax from 40 to 20 per cent on incomes over \$500,000.

The Senate committee changes the House bill by lowering the surtax on net incomes between \$24,000 and \$70,000. This change was suggested to make the graduation more fair and more in harmony with the other porfons of the surtax section. It does not affect the essential features of the bill in its tax-reduction features; nor is it a step out of harmony with the general purpose of the bill, namely, to relieve capital from excessive taxation and give it a chance to enter productive

industry Naturally the debate on the part of the minority fusion group is based on the theory that the prime purpose of taxation is to "soak the rich." There is a point in the whole scheme of taxation where excessive taxes defeat the very purpose of taxation, namely, revenue. figures of income tax receipts for the year 1924 demonstrate that lower taxes levied on large incomes tend to increase receipts of

The tax yield from net incomes over \$500,-000 increased about \$20,000,000 in 1924 over Tax receipts on net incomes over \$1,000,000 were \$11,000,000 greater in 1924 than in 1923.

The proposed surtax begins at 1 per cent on net incomes in excess of \$10,000 and rises per cent on net incomes in excess of \$100,000. This reduction in surtax will be not so much a relief of the few large incomes. as a relief of the pressure to invest large amounts of capital in tax-exempt securities. In the end it will give the Treasury more income tax receipts.

You can train almost any dog to stay at home, but not a jazzhound.

POLITICS IN NEW YORK,

Are the Republican politicians of New York jealous of the little advertising that the Democrats got early in the week when Franklin D. Roosevelt came down to Washington and talked ofer the future of the latter party? In any event, the Republicans appear to have countered on the Democrats. Coincident with the publication of a story that Charles E. Hughes, former Secretary of State, has decided that he will never again aspire to public office, George K. Morris, Republican State chairman, appears at the White House and informs the President that there isn't any doubt the Republicans will carry the State next November. Mr. Morris is so optimistic over prospects that he predicts not only the reelection of Senator Wadsworth, but also the election of a Republican governor, and, it is presumed, he includes all other State officers. The Republican State chairman, it is said, advised the Presi dent and Senator Butler that the legislature at Albany is attending to the public business such a way that everybody is satisfied.

Democrats, and particularly Gov. Smith. must chuckle to themselves when they read the rosy predictions made by Chairman Morris, in view of the fact which Republican leaders privately admit that the Democratic governor has maneuvered them into a position where they are forced to support all the measures he has recommended. The only recommendation made by Gov. Smith which the Republicans are opposing is that for a four-year term for governor, to begin in an "off year." The Republicans want the election of the governor to be in the same year that the President is elected because, they argue, it will bring out a bigger vote and in that way give greater opportunity for expression of sentiment. It is probable the Republicans will gain their point in this, but would be interesting to know upon what facts Mr. Morris predicates a Republican victory all down the line. Senator Wadsworth probably will be reelected, because he will get the votes of many Democrats, just as Al Smith got the votes of many Republicans in 1924, but with Mr. Hughes flatly declining to heed the call of his party the chances appear very largely to favor the Democrats in the next state election.

In time airships will be able to avoid all storms except those of congressional criticism.

COAL CONFERENCE COLLAPSE.

Few persons who have been following the course of negotiations between the anthracite miners and operators really expected the most recent conference in Philadelphia to reach an he was actually anxious to settle the strike. He went into the meeting with a flare of trum- While coyotes are not as destructive as the

from that which had marked the previous meetings. Lewis and his associates were willing to agree to any peace proposal that suited their particular needs. They would take the Pinchot plan or the Lynett plan as a basis for negotiations, but when the slightest suggestion was made involving the only fair and equitable method of settling strikes-to wit, arbitra-

tion-they balked. The word arbitration seems to throw a fit into the miners' leader whenever it is mentioned. He has frequently hinted that he would be much pleased if the government through the President would step into the breach and offer some proposal for ending the strike. Mr. Coolidge has maintained his resolute policy of keeping hands off, not only because he believes that it is the best policy, but also because he has no authority to interfere. But if he did possess the authority and were inclined to take a hand, it is almost certain that the basis of any proposal he might make would be arbitration, and it is altogether probable that Mr. Lewis would reject it.

Consumers have reached the stage where they are no longer dependent upon a settlement. They have gone through the worst part of the winter and can manage successfully to go through the remainder, even if they do have to pay a little extra in laundry bills. It is dawning on the public, however, that John E. Lewis does not want to settle the anthracite strike. He will not listen to any proposition that is prefaced by an agreement to put the miners back to work at once pending negotiations. Apparently, he sees in arbitration, or any compact that provides for arbitration and a long-time contract, the loss of his power and eventually his job. Lewis is not fighting for the best interests of the men he is supposed to represent. He is fighting for his own power and to keep his name on the pay roll of the United Mine Workers of America. The sooner the men in the mines understand this, the sooner there will be a settlement of the strike.

No man can hope to astonish the world: but he can avoid jail and astonish the old home town.

INSURING THE FARMER.

The National Board of Farm Organizations has adopted the following resolution:

We ask of Congress a system whereby any surplus in agricultural products shall be so controlled that the producer may receive for that portion of the whole crop required by the needs of this country at least the cost of production, while the balance shall, under proper control, and at the expense of the producers, be either sold on foreign markets at the world's price, or else be stored and held in reserve to meet future shortages.

If this resolution faithfully expresses the demand of American farmers, and if the farmers organize and make a finish fight to carry this plan into effect, the United States is in for a conflict of the most serious character.

The plan would compel the American people to guarantee the farmer against loss. All other classes, from the laborer to the trust magnate, none of whom enjoys a guarantee against loss in his own business, would be called upon to insure the farmer against loss. The farmer would be in a special privileged class, the only one supported by the United States Teasury.

No provision is made in the resolution looking to the restriction of production. The farmer is to have liberty to increase production to the greatest possible extent, with a guarantee that he will not lose through overproduction.

The plan is an attempt to nullify the law of supply and demand. Unless production were restricted, the attempt might bankrupt the Treasury. Under the inducement of fixed profits the output of agricultural products would pile up unmanageable surpluses. These surpluses would be controlled "at the expense of the producers," according to the plan; but since the producers must be guaranteed against loss for the product sold at home, they would be exempt from assessments except upon the surplus. If the surplus were a loss the whole scheme would fail, and of course the Treasury would foot the bill.

Why does the board ask that Congress should set up this system, unless it is contemplated that the government shall become responsible for it?

It isn't so hard to learn the Charleston after you overcome your reluctance to look ridicu

PREDATORY ANIMALS.

During the debate on the deficiency appropriation bill in the House, the following playful colloquy took place:

Mr. Madden. Mr. Chairman, I yield 20 minutes to the gentleman from South Da-kota (Mr. Williamson). Mr. Williamson is going to talk about predatory animals and I am sure that must include Demo-

crats.

Mr. Connally, of Texas. Before the gentleman from South Dakota begins, may I ask him whether his remarks on redatory animals are to be made in reply the gentleman from Tennessee (Mr. yrns), as the gentleman from Illinois (Mr. Madden) has indicated?

(Mr. Madden) has indicated?
Mr. Williamson. It is a reply to the gentleman from Tennessee in part, at least, because my understanding has always been that many predatory animals have their abiding places on the Democratic side of this House. (Laughter.)

It is not generally known that so-called predatory animals cause a loss to the country of about \$25,000,000 a year. They include the Custer wolf, Three Toes, coyotes, and other species less familiar outside the halls of Congress.

The Custer wolf for many years was a notorious outlaw. For a long period there was a price of \$500 over his head. He was cunning, sagacious and ferocious. Not until October, 1920, after eight months of patient hunting, was the cattle killer captured. For nine years he eluded death. He seemed to have a charmed life. His mate was killed, his coyote companions were shot; but Uncle Sam got him at

Three Toes, the South Dakota wolf, roamed the ranges for thirteen years, leaving devastation and death behind. He destroyed more agreement. The whole thing was merely an- than \$50,000 worth of live stock. Over 150 other gesture on the part of John L. Lewis, men camped on his trail at once, and he eluded president of the miners' organization, with them all. > This interesting information was given the House during the discussion of a deficiency appropriation bill. The members were enlightened as to the depredations caused by many predatory animals, but not including the special species referred to by Representative Madden.

> Correct this sentence; "Why, dad," said be. "you know I wouldn't take the car if there's any chance of your needing it.

TAXING CORPORATIONS

The Senate has agreed to repeal the tax of 1 per cent on every \$1,000 in corporation stock above \$5,000. This will lose the Treasury about \$93,000,000, according to estimates.

At the same time it is proposed to increase the income tax on corporations from 121/2 per cent to 13 1/2 per cent. It is estimated that this will bring in an additional income of about \$86.000,000. If the present business prosperity continues, this amount will undoubtedly be increased; so that the repeal of the 1 per cent capital stock tax will, it is expected, about offset the added tax on net in comes of corporations.

It is estimated that for the fiscal year endmg June 30, 1926, the Treasury's increase in receipts from income taxes will be about \$118.340,000; and upon this basis the Senate. has proceeded.

The repeal of the corporation capital stock tax will be a great relief to hundreds of small corporations; and in all instances will relieve corporations from making a separate tax return, aside from their income tax return.

The capital stock tax is a tax on property based on the fair value of the capital stock and is payable every year. It is a sort of license for doing business. When originally imposed, it was payable in advance, so that a capital stock paid in 1925 is a license to do business until January 1, 1926; but as an outgo for the corporation books and a receipt on the government's books, it is a transaction for 1925.

The income tax is based on a definite net income; the corporation capital stock tax is based on some person's opinion-the "fair value" of the stock.

Here is the net result of the Senate's action in regard to taxing corporations: 40 per cent of them now paying a capital stock tax will be relieved; they are earning nothing or making a deficit. Of the remaining 60 per cent, all of them will find their taxes slightly reduced by this change, except the extremely prosperous ones, which are making more than 10 per cent on the fair value of their stock.

Miss Annie Mathews, county register of New York, is indignant over the assertion made by Mrs. Rheta Childe Dorr that "women in politics have no brains." Miss Mathews declares that there is no warrant for Mrs. Dorr's charge. simply because the women in politics don't kick up a row every day. This recalls the declaration of a judge in the Atlantic City beauty contest last summer, to the effect that beauty and brains do not go together. Perhaps Mrs. Dorr was merely trying to say that all vomen in politics are beautiful.

Speaking of estimates of receipts and expenditures of the Treasury, made in the reports of the Secretary of the Treasury from 1919 to 1921 and from 1921 to and including 1925, the official figures show that the estimates made before 1921 were far less accurate than those made after 1921. This would seem to estop critics of Secretary Mellon from finding fault with estimates after 1921.

Some senators complain that one party is employing the tax reduction bill as an inducement to the voters to vote for their candidates. while the same senators complain because greater tax reduction is not indorsed to induce the voters to vote with the other party. The pot says the kettle is black!

A hick town is a place where everybody is a topic of conversation.

The Worst Story I heard today was told to me by Jack Dempsey, of Hollywood and the United States. Jack is on this train now, and we are in Florida. We flave been on here for four days, coming from California. Neither of us are going to buy, we are going to try and get some of their money. Jack is going down for a couple of exhibitions and I am going down for one week of sightseeing and then I will start in to annoy the Natives in about 8 towns with the delights and benefits of living in California. If you don't hear of me any in California. If you don't hear of me any more you will know that I have been "Shanghied" on to one of those Turpentine Gangs down there. Jack is going to meet and try and defeat 5 thousand lot sellers. They will even take a boxing glove down as a "Binder." it may get by.
I was over in England last year and then visited Scotland and while up there some friends got me to go out to one of the famous Golf courses. These friends all belonged to this club and one of them was a very, very poor Golfer. A Scotch Caddy was trying to sell them a ball. Someone suggested that he sell it to this poor player.

The Caddy replied, "I'll no sell him a ba',

The Caddy replied, "I'll no sell him a ba', he's far better withoot ane."

Now Jack told that in the Scotch Language and if it hadn't been for hearing Harry Lauder one time I doubt if I would have been able to understand him, but here is what it is. "I'll," that is "I will," the same as American. "No," that is not. No is not with Scotch. They save by cutting off the T. Economical people, those. "Sell him a." Sell him means the same in any language, only more so in Scotch. Now "ba'" is ball. See, they saved two letters there. "He is far better," that's practically the same as English. "Withoot," that means without, and "ane" translated into sense means "one."

Democrats and Debts.

New York World (Dem.): We need not attach great importance to the report that some Democratic Senate leaders would like to make opposition to the Italian debt settle-ment a party issue. So, doubtless, would some Republican senators. It is to be hoped the Democrats will not commit the folly of being drawn into such an attempt. In the House debates no party lines were drawn. The advocates of ratification were led by Representative Crisp, a Democrat, of Georgia, on the debt funding commission. Three Democrats of New York, Representatives Bloom, Griffin and Boylan, were among those who argued most effectively for approval

Missing Coolidge Chair To Be Lent at Dinner

Marblehead, Mass., Feb. 3 (By A. P.).—The missing Coolidge chair, the disappearance of which at the annual outing of Essex county Republican club last July has caused excitement within the or-ganization's ranks, has come to light.

George P. Kelley, local police-man, is the confessed culprit, but five Marblehead Republicans beside Kelley admit they are under suspicion and four of them have agreed to produce the article of furniture at the Lincoln day dinner in Salem and explain its dis-appearance. They insist, however, that partly discipline or no discipline they are going to keep the

AST time we made clam chowder, and today I wants to give you another winter dish, this time a pudding. The recipe came, although I do not know whether or not originally, from Nevada, and is capable of creditably replacing your plum pudding at Christmas time most economically. Try it now, before the cold weather leaves us, and if you enjoy it, put the recipe aside for the next holiday season.

We shall soon, I hope, be discovering a hint of spring in the markets. Already strawberries are putting in an appearance, but at a prohibitive figure. For a change, I am going to give you on Satirday a recipe for chicken with noodles. By serving with it a salad for a green the monotony of the usual run of winter vegetables may be for home-made noodles and will write me a card at once I will give one on Saturday. They are not difficult to make and are considered a great delicacy in this age of the "package" variety.

Now for carrot pudding and a raisins and three-fourths cup of ground currants. Mix these ingredients together well and add one cup of sugar, one and one-half cups of flour, one teaspoonful of soda in a little hot water. Bank, tractions and one or two recent favorites divided the leadership of the local market in yester day's session on the Washington Stock Exchange. Federal-American National and

Liberty National banks were especially strong, shares of the first institution climbing 9 points, to 399, a new peak, but a point was parted with on final transaction with closat 400, while Liberty National, in selling at 212, soared 3 points over last preceding level, ending the day with 212 bid and 215 asked.

All of the utilities were strong Potomac Electric Power preferred advanced a full point, to 108 %, and the preferred interim receipts sold ¼ point up at 107 ½, but eased previous level and closed at Washington Railway & the common, active for the first time in several weeks, dropped Washington Gas Light maintained its strength and sold unchanged at 73 ½, as did Mergenthaler Linotype, which changed hands at 215. Merchants Transfer & Storage again sold at 123, while the preferred, selling on a when issued basis, was a fraction easier

Bond transactions were recorded in Potomac Electric Power consoli-dated 5s at par, Washington Gas Light 5s at 100 and the 6s at 103½.

Life Insurance Year Was Good.

"The year 1925 was the greatest year of production in life insurance history," said Thomas P. Morgan, jr., local manager of the Mutual Life Insurance Co. of New York, yesterday. "The great volume of sproduction from year to year is due to two causes," he declared, "a gental and wholesome prosperity and an ever-deepening public realization." an ever-deepening public realization of what life insurance is and what

Special to The Washington Post.

New York, Feb. 3 .- Call money was distinctly easier today, and as a consequence the stock list was generally stronger, adding from 2 to 5 points to its gains in numerous instances and from 6 to 12 points in a few isolated cases as a result of pool operations. Demand in the main was considerably greater and the turnover exceeded 1,750,000

If any lingering doubts remained If any lingering doubts remained that the stock list was moving out of the trading area in which it had been restricted for several weeks, they were dissipated by the strong upward trend that was in evidence virtually throughout the session. Probably the principal reason for the revival of speculative interest was to be found in the return of easy money conditions. Standing easy money conditions. Standing call loans renewed and ruled to the close at 4 per cent, thus equaling the lowest rate quoted so far this

Year.
The strength of the market also The strength of the market also indicated that Wall street had come to the conclusion it had been unduly frightened over the impending publication of figures on brokers' loans. The outcome of that change

of attitude was a number of new high-price records for the year.

The important gains today were registered by the sound specialty stocks and other issues which attract investment buying. New maximum quotations were established by Allied Chemical, which has been compared to American Can because of its strong financial position; Arm. & Co. of Ill "B".

compared to American Can because of its strong financial position; Remington Typewriter, Texas Gulf Sulphur, Air Reduction and other issues of that class.

California Packing soared more than 8 points to a new peak level on unconfirmed rumors that the negotiations for absorption of that company by the Postum Cereal Co. were about to be concluded. Postum gained 2 % net. Standard Milling, American Ice, Cast Iron Pipe and American Can were other strong American Can were other strong

American Can were other strong and active specialties.

Local public utility stocks were under fresh accumulation. Consolidated Gas was advanced in impressive fashion above par to a new high record level and closed 1% net higher. Third Avenue was bid up 4 points to the highest price in years and Interborough finished a point net higher.

The oils had a good market in response to further price advances in both crude oil and gasoline. As-

response to further price advances in both crude oil and gasoline. Associated Oil was the feature and finished 1½ up on a large turnover. Big blocks changed hands at new high quotations, with talk of another petroleum merger in the air. Pacific Oil, Sinclair and, in fact, all the popular oils, moved up with it.

On news that the metal market was firmer, the coppers were bid up and other metal stocks were also higher, particularly American Smelting, which gained 2½, and American Zine, whose preferred gained 4½. Featuring the motor group was General Motors, although it closed but a point high. Mack Truck advanced 2 points.

PRACTICALLY COMPLETE

Pan-American to Be Nucleus, With California Pete in Later, Brokers Hear.

STATEMENT IN 24 HOURS

New York, Feb. 3 (By A. P.) Negotiations were practically completed here tonight for a merger of the Associated Oil Co. with other Western oil properties, whose identity was not revealed. Blair & Co. bankers, who are engineering the combination, said that a statement probably would be given out within the next 24 hours.

Wall street learned unofficially that Associated and Pan-American

Western Petroleum would form the nucleus of the new combination, with California Petroleum a likely unit later on.
Control of Associated Oil has been sought by several banking and oil interests since the merger in December of the Pacific Oil Co. with the Standard Oil Co. of California. Pacific Oil, which has had a controlling interest in Associated forma. Pacific Off, which has a controlling interest in Associated for years, announced that it would distribute to its own stockholders its holdings of Associated Oil stock. which could not go into the Stand-ard Oil of California merger for

When this became known, large stockholders of Pacific were approached with offers for the purchase of their Associated Oil holdings. The offer of Blair & Co. is reported to have been the most acceptable, and it was reported to high that an agreement along the lines proposed would be signed within 24 hours. It is understood that minority stockholders of Associated would receive the same sociated would receive the same terms granted to the majority in-

As a result of its merger with the Standard Oil Co. of California. Pacific Oil stockholders will receive two shares of Associated stock for each five shares of Pacific held, and at least \$3 in cash and share for share in the new Standard Oil of California.

California.

It is expected that Southern Pacific's one-third interest in \$10.500,000 capital stock of Associated Pipe Line will be distributed equally between Associated, which now owns one-third, and Standard Oll of California, which acquires the third interest formally held by Pa-

Drafting of Schedule Is Delayed Until February 15.

Special to The Washington Post.

NEW YORK, reb. 3.—The meeting of the National league magnates today at the Hotel Astor which it was generally supposed was called for the sole purpose of adopting the 1926 cham-pionship schedule, developed into a ratification rally for High Com-missioner Kennesaw Mountain Landis, the major domo of everything that comes within the jurisdiction of organized baseball.

As things developed, the adoption of the schedule was of second-

ary importance. The big action of the day was the unanimous adop-tion of a resolution in which the loguls not only affirmed their conmogus not only affirmed their con-didence in the silver-thatched com-missioner but resolved that the commissioner's term of office be ex-tended, at the end of his present term, to from seven to ten years at the current stipend of \$50,000 per

Stanley Coveleskie, veteran spit-ball pitcher, is the seventeenth National to enter the fold for 1926, his signed contract having been received by President Griffith yesterday, according to word received from Washington's Tampa office.

Covey believes that last season's preliminary hikes and baths, taken at Hot Springs, did him a world of good and asked permission to go there again. His request has been granted and he plans to reach The Spa on February 8, where he will spend about two weeks.

In the lighter division, Mitchell also will carry out his policy of having more than one man available, taking Joe Conlin, Izzie Goldberg and T. Largny along to appear in the 115 and 126 pound bouts. Conlin can fight only in the 126-pound class, but Goldberg can go in either class and probably will fight at 126 pounds, unless he is obliged to give away too much poundage. In the event Goldberg fights in the feather class, Largny will appear in the 115-pound bout. The squad will leave Washington Friday morning in order to get in a good night's sleep there before the meet.

Take 18.2 Intercity Match, 1,200 to 1,101 Points.

Baltimore in a 1,200-point continuous match, 1,200 to 1,101. The ous match, 1,200 to 1,101. The match was played in four blocks of 300 points each, the Capital Cityans starting tonight's play with a 48-point lead, due to some brilliant cueing on the part of Frank Turton and Edwin L. Powell in the third match in Washington last week, when a Baltimore lead of 147 was everyengen. 147 was overcome.

B. R. Clark and Powell were the visitors' representatives in tonight's matches, their respective opponents being Enoch Parsons and Howard

C LARK practically assured a Washington vietery when he defeated Parsons, 150 to 96, in the first match, the visiting cueist being in rare form and playing stead-ily and consistently throughout.

1926 Football Captain Suspended for Cheating

Columbia, Mo., Feb. 3 (By A. P.) .- Harry R. ("Pete") Jackson, of St. Joseph, star quarter-back and captain-elect of the 1926 Tiger football team, has been indefinitely suspended from the University of Missouri or charges of "conduct unbecoming a gentleman and cheating during an examination." Dr. Albert K Heckel, dean of men, announced today.

Jackson is alleged to have participated in a party recently, at which he attempted to assault one of the young women who attended, Dean Heckel said. He also is charged with taking to an examination more than 100 pages of notes.

The charges were investigated and found to be true, Dean Heckel said, and Jackson was advised that his reinstatement would never be considered as long as Dr. Heckel was dean of men. Three other students, two women and a man, were sus-

Thunberg Disappointed Over Showing and Finances.

N EW YORK, Feb. 3 (By A. P.).
—Disappointed over his poor
performance and dissatisfied
with financial provisions for his expenses, Clas Thunberg, of Finland, olympic speed skating champion, may cancel the remainder of his North American tour and return to

Europe.
Thunberg's next appearance is scheduled at Detroit, where the international outdoor championships begin Friday, but the Finnish star, it was learned today, is unwilling to go there unless guaranteed the full quota of expense money stipt-

full quota of expense money stipt-lated in the agreement covering his participation in five United States and Canadian meets.

Failure to receive the full amount due him in connection with his competition in the national championships just concluded at Binghamton, N. Y., was said to have influenced his present atti-tude.

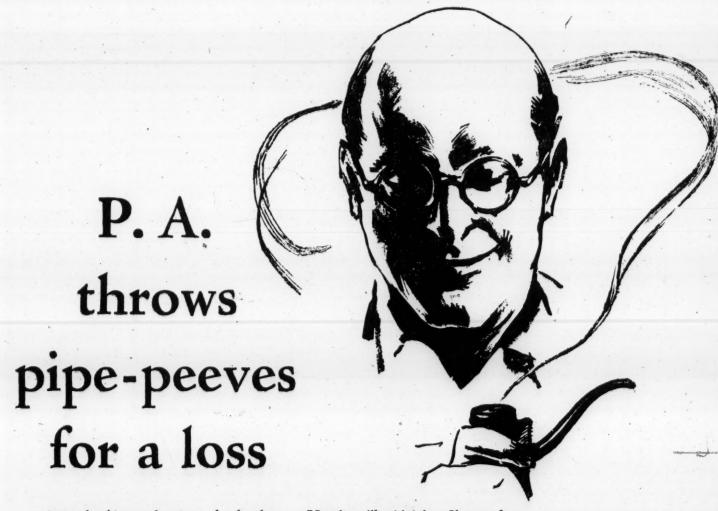

It is understood that Thunberg was guaranteed \$1,500 in expense money for his trip, this to be prorated among the skating associations conducting meets in New York, St. John, N. B., Binghamton, Detroit and Lake Placid, N. Y.

AND the bigger they are, the harder they fall, as Shakespeare or somebody said. You can prove this beyond question with a jimmy-pipe and a tidy red tin of Prince Albert. Any time. Anywhere. As a matter of fact, tackling pipegrouches is P. A.'s regular business.

Cool and sweet and fragrant, P. A.'s wonderful smoke comes curling up the pipe-stem, filling your system with a new brand of pipe-pleasure. You smoke . . . and smile! For the first time in your life, you've found the one tobacco that scales to your blueprint of bliss.

Morning till midnight. Slow or fast. No matter how you teed it, P. A. never bites your tongue or parches your throat. Those important items were taken care of in the original plans by the Prince Albert process. That's why they call P. A. the friendly tobacco.

Right in your neighborhood is a store where they hand out jimmy-pipe joy in the familiar red tin. Take yourself there now and tell the man you want a tidy red tin of P. A. Learn from experience why millions call "P. A." the most important letters in the smoke-alphabet.

MINING GROUP IS ACTIVE

New York, Feb. 3 (By the Associated Press) .- Aggressive bidding for an assortment of railroad, traction and oil company liens featured the resumption of the upward movement in the bond market today. The return of easier money conditions supplied the incentive for speculative operations and also encouraged a continuation of investment buying.

Several new high records for the year were established in the railyear were established in the railroad group by such representative issues as Canadian Pacific 4s. Wheeling and Lake Erie Refunding 1½s, New Haven 4s, Ann Arbor 4s and New York, Susquehanna and Western 5s. A good demand also developed for Union Pacific and Pennsylvania issues, but New York Central 4½s. Chesapeake and Ohio convertible 5s and Missouri Pacific Refunding 5s worked lower. Failure of the anthracite strike negotiations depressed Delaware and Hudson and other coal carrier liens. In response to the spreading movement for higher gasoline and crude prices, the persistent reports of new merger alignments and favorable dividend developments, oil company bonds found no. difficulty in attracting the attention of buyers. The demand centered largely in Pan-American, Skelly and Sinclair issues. Higher prices for Anaconda 7s, Chile 6s and Granby 7s, reflected a revival of interest in Mining company obligations.

No new developments, were reported in the local transit situation, but buying of the New York Traction bonds expanded close to last week's proportions. Interborough, New York Railways and Third Avenue Railway issues were favored. road group by such representative

EDUCATION BOARD SILENT ON GASQUE BILL AT MEETING

Executive Session Bars Public; Open Discussion Is Frowned Upon Later.

REPORT IS PROMISED WITHIN NEXT FEW DAYS

Half Holiday Is Approved Dove Heads Chamber **During Convention of** Superintendents.

The board of education, after heralding in advance its determination to hold a special meeting to consider and set forth in detail, for the benefit of the public, the defects in the Gasque bill providing for an elective board, yesterday evaded the law prohibiting secret processing by resolving itself into a weated the law promoting secret meetings by resolving itself into a "committee of the whole" and considered the measure in executive session from which the public and reporters were barred.

The pronouncement of the board, it was easily afterwards will be set

it was said afterwards, will be se forth in a lengthy statement to be

forth in a lengthy statement to be issued later.

The "committee of the whole" meeting was held preceding the regular public meeting of the board of education and was attended, among others, by Ernest Greenwood, acting president of the board, and Charles F. Carusi, newest board member, neither of whom, however, considered the public meeting which followed of sufficient importance to demand their presence. They departed in a taxicab after the executive meeting.

The Tact on Eighteenth Street Threatened by Realty Development, They Say.

Purchase for park purposes of a tract of Northeast property now threatened with real estate development was urged upon the Nacional Capital Park Commission yesterday by a committee of the Rhode Island Avenue Citizens association, headed by Chester R. Smith, its president.

the elementary schools, which should first be brought to meet requirements. This sentiment was pressed in a communication to ae board from the Conduit Road

clivitizens association.

inae board from the Conduit Road in its its ensure association.

Half Holiday Planned.

Closing of the public schools for a half day when the department of superintendence of the National Education association meets here was approved by the board on recommendation of Dr. Ballou, president of the department. Normal and elementary schools will be closed Tuesday afternoon, February 23; junior high schools, Wednesday morning, February 24, and senior high schools Thursday afternoon, February 25. Doubt that pay rolls could be certified if the schools were closed for a whole day, expressed by Dr. Ballou, put an end to such a suggestion by board members.

Formal approval was voted by

board members.
Formal approval was voted by the board to the promotion of G. D. Houston from Dunbar to the principalship of the Armstrong colored high school. The change went into effect last Monday. The vacancy at Dunbar was not filled. Neither was a report made on the strike of students at Armstrong, in protest against the demotion of Capt. Arthur. Newman.

Miss M. E. Wilson was promoted from principal of J. F. Cooke wheel from principal of J. F. Cooke wheel

Miss M. E. Wilson was promoted from principal of J. F. Cooke school to administrative principal of the

same school.

Mrs. Anthony Wayne Cooke, president of the D. A. R., was thanked by Dr. Ballou, with approval of the board, for her praise of the teaching of patriotism in the District schools.

School Heads Deny

To put an end to rumors spread broadcast among teachers in col-ored senior and junior high schools, of wholesale transfers to and from the Armstrong school, a definite statement of policy of the school administration was made yesterday to build up the Armstrong organization without tearing down that of any other school.

It is expected that a successor to G. David Houston, as head of the department of business practice and assistant principal of Dunbar High assistant principal of Dunbar High school, will be made soon by the board of education. John R. Pink-ett, said to be an aspirant for the position, stated last night that he did not desire connection with the public schools, except in a cooperapublic schools, except in a coopera-tive way with the department of cast time signals twice a day direct

schools in the light of charges that they were wholly inadequate, in many instances, in equipment and space, as well as being insanitary and unhealthy. Mrs. Norton. constituting a committee of one for the purpose, expects to go on her tour of inspection the latter part of the week or early next week.

The child was adopted.

The name of the 3-year-old girl whose adoption was legalized this week by Chief Justice McCoy, in equity court, is Margaret Lawrence Moran and not Evelyn Lawrence.

Moran and not Evelyn Lawrence Moran as erroneously stated in The Post. The child was adopted by her mother, Mrs. Evelyn A. Moran and her stepfather, James L. Moran.

Park Commission Bill in House Monday

The bill enlarging the name cope and membership of the National Capital park commission vesterday was added to the program of local measures to be considered by the House Monday. Reported favorably by a subcommittee headed by Representative Gibson, of Vermont, it, in turn was given fa-varable report by the full District committee, headed by Represent-ative Zhlman.

As amended to remove all object tion to it, the measure would change the name of the body to the National Capital park planning commission, with a membership of nine instead of thirteen, as pro-vided in the original bill.

Committee of Audits

William M. Dove was appointed chairman of the audit committee of the Washington Chamber of Commerce by Martin A. Leese, president, yesterday,

Others appointed to the commit-tee were Joseph D. Dreyfuss, vice chairman; George P. Killian, Rob-ert McP. Milans and Oscar T. Wright.

demand their presence. They departed in a taxicab after the executive meeting.

Suggestion Frowned Down.

Harry O. Hine, secretary of the board, innocently asked the board, innocently asked the board in the public meeting, whether it wanted to consider the report of the "committee of the whole" but Dr. Frank W. Ballou, superintendent of schools, frowned, board members looked surprised and dublous. There was a whispered consultation and nothing more was said about the matter.

One of the principal points the board is expected to emphasize in opposition to the Gasque bill is that an elective board will have no greater authority than an appointive one and only a change in the authority of the board to control school affairs will permit any material improvement.

Construction of a junior college here as a part of the public school system was disapproved by the board as "unwise," on motion of Dr. F. I. A. Bennett, without discussion. Disapproval at this time was expected. Board members believe there is too much needed by Chester R. Smith, its president.
